

Pin Driver

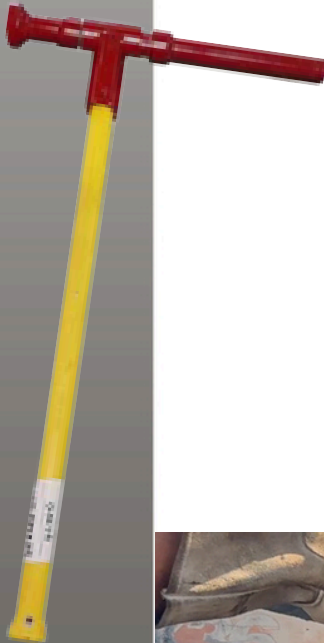

Is Your Workload Weighing You Down?
Let LHR Give You A Hand!

Safety Is Our Business

The Pin Driver is a unique safety tool provides for the safe removal of drive pins. The heavy duty 35" handle allows one person to securely hold and position the tool at arm's length while another person strikes the tool with a hammer. This prevents costly hand and arm injuries. .

Specially Designed

The handle has a predrilled hole to be used as a tethering point. The LHR Pin Driving Tool is available in 3 convenient size variations. Unit weight 12 lbs.

PACK A PUNCH WITH THE
